## THE WARD-BELMONT SCHOOL

---

### HISTORICAL SKETCH

WARD-BELMONT, a junior college for young women, is the outgrowth of the union of Ward Seminary and Belmont College. Ward Seminary was founded in 1865 by William E. Ward, D.D., and Belmont College was founded in 1890 by Misses Ida E. Hood and Susan L. Heron. In June, 1913, the two schools were united on the Belmont campus under the charter name, "The Ward-Belmont School." Ward-Belmont is not forgetful of her past; she honors her founders, she reveres the two parent schools, and points with pride to that long line of graduates and students who have gone out into life's service, and whose happy memories and genuine affection for the old schools now bind them to the new.

A record of long service in the national field constitutes the richest heritage and the real asset with which Ward-Belmont pursues her new and larger life.

### NASHVILLE AND ITS ATTRACTIONS

Nashville has an enviable record as an historical, educational, and cultural center.

The chosen location of great universities, professional schools, colleges, and preparatory schools, Nashville has established a far-famed reputation as a center of learning. Ward Seminary and Belmont, through their long and honored careers, have contributed much toward winning for the city of Nashville her merited title of "The Athens of the South." These two schools, in coöperation with Vanderbilt University and George Peabody College for Teachers, have given a distinct charm and atmosphere of culture which makes this city an ideal home for students.

On an imposing eminence the State Capitol stands, an interesting example of classic architecture. In its grounds is the tomb of President James K. Polk. Located at a central point in the Centennial Park is a facsimile of the Parthenon, true in every detail. On one of the many beautiful drives and car lines is Belle Meade, for many years a cel-

ebred stock farm. Twelve miles from Nashville is the Hermitage, the home and burial place of Andrew Jackson, President, statesman, and warrior. Not far from the Ward-Belmont campus is the battle field of Nashville, and near by stretches the scene of the battles of Franklin and Stone River. Within a few hours' ride are Lookout Mountain and Mammoth Cave. Nashville is within easy reach of all the historical points of Tennessee.

In addition to the cultural advantages offered by Nashville through its educational and historical interests, an opportunity is given by the city to hear many of the most famous artists, readers, and lecturers. Nashville thus affords the means of acquiring a most liberal culture.

### THE CAMPUS

Ward-Belmont stands in the beautiful hilltop park formerly the site of Belmont, and to both the grounds and buildings extensive additions have been made. The campus, containing thirty acres, is surrounded by one of the best residence sections of Nashville. It is sufficiently removed to give that quiet and seclusion which are conducive to studious habits; yet the railway station, the shopping districts, and the churches of all denominations in the city are easily accessible by car. Ward-Belmont is located in the vicinity of Vanderbilt University and George Peabody College for Teachers, and has an elevation of one hundred feet above the city.

### CLIMATE AND HEALTH

The bracing atmosphere and temperate climate of Middle Tennessee make Nashville an ideal location for school work. Pupils from more northern States, as well as those from farther south, find here a school unexcelled in physical advantages. The mild weather and the inviting campus encourage outdoor sports and games, which have contributed much toward maintaining the excellent health record of the school.

Ward-Belmont realizes just how much the health of its students depends on physical conditions, and safeguards their health in every possible way. The buildings are sanitary; the drinking water is filtered, sterilized, cooled, and

WARD-BELMONT: NORTH QUADRANGLE—SOUTH ENTRANCE OF MAIN BUILDING

SOUTH VIEW OF MAIN BUILDING

is supplied in hygienic fountains throughout the buildings; trained and experienced nurses have charge of a well-ordered infirmary. A further precaution is the requirement that a certificate of good health be furnished by every resident student.

Ward-Belmont realizes that, in order to reach the best mental as well as physical results, one must have good, nourishing food. Especial care is paid, therefore, to the meals and their preparation. The kitchen and bakery have the latest improvements in steam cooking, gas and electric appliances, and cold storage; the dining halls are commodious and attractive. The menus are supervised by a trained dietitian.

The physical safeguards and the abundant supply of wholesome, nutritious food, the regular habits and ordered life of the school, and physical culture scientifically adapted to the student's individual needs are potent factors in promoting the excellent health record of Ward-Belmont.

## BUILDINGS AND EQUIPMENT

The plan of the buildings is that of a quadrangle with one open side. On the north side of this square are located Fidelity, North Front, South Front, and Founders Halls, with the drawing rooms, the auditorium, and the dining rooms; on the east, three other residence halls—Pembroke Hall, Heron Hall, and Senior Hall; on the south, the Academic Building and the new Gymnasium. Other buildings on the campus included in the school plant are the new High School Building, the music practice house, the social club buildings, and the heating plant. The buildings are handsome and commodious, and are models in their adaptation to school use. They are fitted with the most improved methods of sanitation, heating, lighting, ventilation, and fire escapes.

The Academic Building, in classic colonial architecture, was completed and equipped in 1914. In this building are the large, well-lighted classrooms, the library, the science laboratories, the expression and art studios, and the administration offices. The library is under the care of expe-

rienced librarians, and is open every day, except Sunday, from 8 A.M. to 5:30 P.M., and every evening, except Saturday and Sunday, from a quarter past seven to a quarter to ten. It contains about seventy-five hundred well-chosen volumes, and its reading tables are liberally supplied with standard magazines.

A gymnasium, with every modern improvement, has just been completed. It is a handsome three-story brick building, with stone trimmings, conforming in style to the Academic Building, with which it connects. The first floor is given over to bowling alleys, showers, lockers, and linen, shampoo, and hair-drying rooms. The office of the swimming teacher is also on this floor. The entrance hall and corridors of this floor are terrazza. The floors of the shower, shampoo, and hair-drying rooms are white tile.

The second story of the building constitutes the main floor for gymnasium work, and provides a spacious, well-lighted room for all forms of gymnastic exercise. The third floor contains the visitors' galleries, a studio for æsthetic dancing, and three small rooms for special classrooms, board meetings, and trophies.

The swimming pool is in a separate building, which connects with the gymnasium on a lower floor through two entrances. The entrance to the audience balcony of the pool is gained from the second floor of the gymnasium. The pool has the advantage of overhead sunlight and good outside ventilation through a large skylight and windows both on the lower and balcony floors.

Separate dormitories are provided for college and high-school students, thus promoting the individual welfare of each department. These residence halls are well furnished and in their arrangements meet every demand of comfortable and refined home life. Pembroke, Senior, and Heron Halls are arranged in suites of two double rooms with connecting bath, or, in some cases, of two single rooms with connecting bath. Other dormitories have either separate double rooms, with ample sanitary appointments and baths on every floor, or bath suites of two double rooms each. Each room is furnished with rugs, dresser, table, chairs, single iron beds, and, with few exceptions, separate closets. All the rooms have outside exposure, with abundant sunlight and fresh air.

### **FACULTY**

The real strength of a school lies in its teaching force. Ward-Belmont selects her faculty with care, and in the various departments are men and women of the highest ideals who have been educated in standard colleges and universities of this country and abroad and who have had successful experience in the classroom. In the literary work, in Music, Art, Expression, Home Economics, and in Physical Education, the same high standards are upheld. Ward-Belmont believes that true education is character building, and selects her faculty with this in mind. Believing in the inspiration from personal touch between teacher and pupil, the school maintains an approximate ratio of one faculty member to ten resident students. Ward-Belmont is characterized by cordial friendship and sympathetic interest in the attitude of the faculty toward the students in all the activities of the school.

### **HOME LIFE**

The President and his family and many of the teachers and officers of the administration live in the residence halls, and their presence as constant advisers and sympathetic friends contributes much to that spirit of comradeship and good cheer so evident in the school. Constant appeal is made for sincere coöperation on the part of every student in maintaining wholesome standards of school living. Handsome drawing rooms, attractive corridors, inviting rest rooms on every hall, and the unusual feature of a roof garden for recreation, all attest the care with which the home comforts and pleasures have been anticipated.

### **SOCIAL CLUBS**

Ten clubs, with a membership of fifty to sixty each, are a pleasant and helpful feature of the social life of the school. Membership in one of these clubs is expected of every resident student. They meet formally once a week for social, literary, or musical programs, and informally at other times for recreation. A spirit of loyalty in the clubs develops in the students the best qualities, mental and moral as well as social.

### **RELIGIOUS ACTIVITIES**

Christian homes all over the land are sources from which our students come. Though no sectarianism is lived or taught, earnest effort is made to stimulate and strengthen the impulse toward Christian life and service. Regular Bible courses form part of the curriculum, and there is an active Young Women's Christian Association, in which members of the faculty coöperate with the students. The association and the school jointly employ a secretary, who directs the activities of the Y. W. C. A. so that the influences of this organization are made vital in the life of the school. Systematic Bible training and mission study, daily devotional exercises at chapel, and frequent visits by the pastors of the city are among the agencies by which the school life is made wholesome and inspiring. The spirit of church loyalty is fostered by requiring each student to attend the church of her parents' choice on Sunday morning.

### **DRESS AND HOUSEHOLD ARTICLES**

Extravagance and extremes in dress are firmly discouraged. The administration presents its ideas and regulations for appropriate dress for the Ward-Belmont girl in a dress circular, which will be sent on request to each mother who contemplates sending her daughter to the school.

An abundant supply of table napkins, towels, sheets, pillowcases, and bedspreads is furnished each student at a reasonable charge for the year.

### **GOVERNMENT**

Discipline in Ward-Belmont is simplified by a modified form of student government, properly safeguarded by faculty coöperation and supervision. This organization consists of (1) a student council, composed of representatives chosen by the students from the High-School as well as the College classes; (2) a faculty committee, appointed by the President; and (3) the President.

### **LECTURES AND ENTERTAINMENTS**

The presence in Nashville of great universities and professional schools and various church boards insures the coming of famous lecturers and entertainers. Lectures on

a great variety of subjects, free to the student body, are delivered during the year by men and women of distinction. Artists of international reputation are frequently brought to Nashville. In the past Ward-Belmont students have had the opportunity of hearing the following, among other notable people:

## EXCURSIONS

Nashville has an interesting historical and geographical setting. Every year the students are given opportunities to visit Mammoth Cave, Lookout Mountain, The Hermitage, and other historical places in or near Nashville. A trip to Washington, New York, and Niagara will be offered for the Christmas vacation, should a sufficient number be interested. In accordance with the custom of many years, a school party will spend the summer vacation in Europe under the chaperonage of Ward-Belmont teachers.

## MUSIC, ART, AND EXPRESSION

Ward-Belmont offers to girls and young women exceptional opportunities for the study of the Fine Arts. The work in these subjects is of the same high standard as that in the Liberal Arts department. Frequent music recitals tend to develop an appreciation for that which is best in this field. Students are always made welcome to the Art studios, and special exhibitions are given to cultivate a love for the beautiful in color and form. In the School of Expression class recitals at frequent intervals afford to the participants splendid opportunity for development, and to the school at large an excellent means of culture. Attractive studios and an inspiring environment make the work of these departments a genuine delight. The teachers represent the best culture and training of this country and Europe. They have established an enviable reputation for Ward-Belmont as one of the distinct centers for the training of young women in subjects so important in the development of æsthetic taste and temperament.

## HOME ECONOMICS

Domestic Science and Domestic Art are now regarded as essential in a well-rounded education for women. Responding to this progressive movement, Ward-Belmont maintains a thorough department for the study of the home and its varied problems. With its comprehensive courses, its attractive and well-equipped laboratories, and with its able corps of teachers, this department of practical worth holds an established place among the departments of the school.

## BUSINESS COURSES

To meet still further the needs of the present time, Ward-Belmont is offering special courses in Stenography, Typewriting, and Bookkeeping, thus giving an insight into the practical fundamentals of business.

There is a growing realization that in the future women

must be prepared, not only to conduct the business affairs of the home, but also to share in the leadership of civic affairs, and in many cases to fill positions of executive responsibility or to manage their own estates.

### **PHYSICAL EDUCATION AND PLAYGROUND SUPERVISION**

Thorough courses are offered in Physical Education and in Playground Supervision, subjects which are being emphasized to-day as never before in education. The campus affords opportunity for outdoor games, the gymnasium is so equipped that exercise may be adapted to the individual needs of the pupil, and the swimming pool is modern at every point and free to all students. Trained teachers are in charge of every feature of this department. The work in Playground Supervision is so planned that the students enjoy the recreation, and at the same time grasp the methods by which directed play may be made to promote health, stimulate the intellect, and lift the moral tone of any community.

### **COURSE OF STUDY IN LIBERAL ARTS**

Ward-Belmont offers a Junior College Course, corresponding to the four years of a preparatory school and the Freshman and Sophomore years of a standard four-year college. A student who contemplates entering a certain college or university after the completion of this course should advise the Dean in advance, that the subjects which she takes in Ward-Belmont may be those required by that institution.

In the Liberal Arts Department, Ward-Belmont offers a Classical Diploma and a General Diploma. With certain limitations, work in Music, Art, or Expression may be counted toward the latter.

At the end of the first four years of the course, corresponding to the high-school period, students may receive the High-School Certificate, provided the proper balance has been maintained by the completion of courses prescribed. Those earning this certificate can ordinarily complete requirements for a Ward-Belmont Junior College Diploma in two additional years, or they may be admitted without examination to leading colleges and universities which admit

students on certificates, provided in each case the peculiar entrance requirements of the institution considered have been met.

### **ADVICE ON CHOICE OF SUBJECTS**

It is our desire that the courses of study be clearly understood by parents and prospective pupils. Again, it is important that each pupil's course be carefully planned on the basis of work already completed, and that individual tastes and aims be taken into account. To accomplish these ends, correspondence and personal conference with the Dean are cordially invited. A complete course of study for the ensuing year should be filed in the Dean's office by August 15, or as soon thereafter as possible. Prospective patrons are urged to coöperate with us in working out this course of study. Plans so made can be modified, if it seems desirable to a patron, on the opening days of school; but further changes during the year are usually discouraged. Continuity of effort and the greatest advancement can in this way be secured.

### **APPLICATION FOR ENROLLMENT**

Early application is advised. This application should be made on the school's special blank, which calls for references, and must be accompanied by a physician's certificate as to the health of the applicant. These forms will be sent on request, and no student can be definitely enrolled until they are properly filled out, submitted to the Registrar with the enrollment fee of \$25, and formally accepted.

### JUNIOR COLLEGE DEPARTMENT

**ADMISSION.**—Graduates of accredited four-year high schools, on presentation of satisfactory credentials, will be admitted to the college without examination. These applicants must present a total of 15 units, of which the following are prescribed: English, 3; Algebra, 1; Plane Geometry, 1. The remaining 10 may include any unit offered by an accredited four-year high school and meeting the general requirements as defined by the North Central, the Southern, or other standardizing agency of colleges and secondary schools. However, not more than three units in vocational subjects and no fewer than two units in one foreign language will be accepted.

**CREDIT HOUR.**—An hour represents one hour of recitation or lecture per week for thirty-six weeks or two hours per week for one semester in a college course.

Two or more hours of laboratory work correspond to one hour of lecture or recitation, depending upon the nature of the laboratory work.

In Art, ten hours of supervised studio work per week give three hours' credit. In Music, two lessons a week for a year, one and one-half hours' daily practice, and two hours' recitation per week in a musical science are credited as three hours. In Expression, four hours of prepared class work and the necessary collateral and group work give three hours' credit.

**HOURS RECOMMENDED.**—For the average college student a maximum of fifteen hours of literary work is recommended, but under certain conditions a minimum of twelve and a maximum of seventeen are permitted.

**SPECIAL SUBJECTS.**—Not more than a total of nine hours may be counted toward a diploma for work in the departments of Music, Art, Expression, and Home Economics. Work in these departments, when completed elsewhere, will be credited toward a certificate or diploma in these special departments.

**FOREIGN LANGUAGE REQUIREMENT.**—Students presenting

only two high-school units of foreign language are required to take two courses in college; those presenting three or more units are required to take at least one advanced course in college.

**CLASSIFICATION.**—The work completed by the beginning of the school year determines the class to which a student belongs. A High-School graduate meeting the above requirements is classified as a first-year college student. A student who has credit for twelve hours of college work and is pursuing courses in any of the Fine Arts and is not an applicant for the general diploma is classified as a College Special. All students who have met the entrance requirements for a diploma and are registered for a course leading to a diploma at the end of the school year are classified as Seniors.

**RESIDENCE REQUIREMENTS.**—For a diploma in the College or any Special Department, at least one full year's work must be completed in Ward-Belmont. To receive credit for advanced standing, the student must present to the Dean proper credentials from an approved institution of junior or standard college grade. The college credit given will then be determined, in no case to exceed fifteen session hours.

### EXAMINATION AND MARKS

An examination is given in every course in accordance with the schedule issued.

Reports are issued at the end of each quarter in accordance with the following system: A, excellent; B, good; C, fair; P, passing; D, not passing; E, absolute failure; X, absent from examination.

No student will be given credit for any course in which every recorded grade is P, except upon examination covering the entire course.

### QUALITY HOURS

Quality hours may be earned in the following manner: A three-hour course completed with a grade of A is equivalent to nine quality hours; with a grade of B, to six quality hours; and with a grade of C, to three quality hours.

## REQUIREMENTS FOR JUNIOR COLLEGE DIPLOMAS

### Classical Diploma

The completion of thirty quantity and thirty quality hours of college work, including English A, English B, Mathematics A, Latin A; three hours of French, German, or Spanish; three hours of History; and four hours of Science.

### General Diploma

The completion of thirty quantity and thirty quality hours of college work, including English A, English B, one or two courses of foreign language, three hours of History, or four hours of Science.

## HIGH-SCHOOL DEPARTMENT

Students who have completed the usual Grammar-School grades will be admitted without examination to the first-year High School or Freshman Class.

A student's yearly schedule should consist of four subjects, credited as one unit each. However, under certain conditions, a minimum of three units and a maximum of five are allowed.

A unit represents five periods of at least forty-five minutes each per week for a year in a subject ordinarily taught in standard high schools, each recitation requiring preparation.

In Music, two lessons per week for a year, one and one-half hours' daily practice, and two recitations per week in a musical science are credited as one unit. In Art, ten periods of supervised studio work per week are credited as one unit. In Expression, five periods of prepared class work per week are credited as one unit. Not more than two units in these subjects will be credited toward a high-school certificate, and no credit is allowed for such work completed below the Junior year.

A single preparatory year in a foreign language is given no credit unless it is followed by a second year of work in the same language.

College credit will not be allowed for a high-school course in excess of those units required for college entrance.

The work completed by the beginning of a school year determines the class to which a student belongs. Four com-

pleted units give Sophomore classification; eight, Junior; and twelve, Junior Middle. If a student lacks not more than one of the required number of units, she will be given conditional classification.

For a certificate in the High-School Department, sixteen completed units are necessary, of which at least one full year's work of four units must be completed in Ward-Belmont.

The same grading system is used in both College and High-School Departments.

### **REQUIREMENTS FOR HIGH-SCHOOL CERTIFICATE**

The High-School Certificate is awarded to students who have completed sixteen preparatory units, including three or four units in English (to include Course IV), two units in a foreign language, one unit in History, one unit in Science, two units in Mathematics (to include Course III). A total of not more than two units will be allowed for work in such subjects as Music, Art, Expression.

## SCHOOL OF FINE ARTS

### I. EXPRESSION

The purpose of this school is to train the speech and establish right vocal interpretation of literature. Its aim is to arouse an interest in the dignity and purity of speech and thorough training to prepare the student for any walk of life where pure speech is significant.

The school purposes, through scientific training of mind, voice, and body, to stimulate self-confidence, leadership, and creative power. The training is to secure unity of mind, voice, and body. Faults are traced to the mind and are corrected through thinking.

Emphasis is placed upon a study of the voice, its causes and conditions, upon training of the body in response to thinking. The elements of thinking, logical, dramatic, creative, are taught through the study of literature by means of the laws of vocal expression.

The study of English Diction, for eradicating all local dialects and speech defects, is a daily activity of the school. The principle of the school is that growth and development of the mind depend on the reception of the right impression and upon its adequate expression. We build upon the law: "Impression must precede and determine expression."

## II. ART

The creative power, which, in a greater or less degree, is the possession of every human soul, should be recognized and cultivated, and that appreciation developed which is the beginning of all growth of Art. The study of Art involves the training of the eye, mind, and hand, and that exercise of both skill and judgment which makes for power in an individual and creates efficiency, no matter what the calling may be. Thus understood, the study of Art should have a place in every liberal education. In every branch of the School of Art the object is to make the pupil proficient and to give her a foundation upon which she can build. The methods of instruction are varied, and are such as have been found to be the most efficient in developing the possibilities of each student and in giving her the means of artistic self-expression. The student is taught to use and develop her innate ability; she is taught to recognize ideas and to evolve them, to see facts, and to express them according to principles as well as to feelings. Stress is laid on the fact that intellect is more essential than sentiment in Art expression.

The Ward-Belmont studios are in the Academic Building, and are well planned and excellently lighted.

Students of College advancement specializing in Art are seriously advised to elect History and Appreciation of Art as one of their literary subjects.

A Certificate in Art is given to College students who have satisfactorily completed two years of College work in Art, together with History and Appreciation of Art.

*I. Costume Design.*—The work in Costume Design is planned to give the student a knowledge of the application of the principles of design to clothes. Every woman not only wishes to be, but should be, appropriately dressed. If she thoroughly understands line, color, and value, she will be able to use what she has to the best advantage. The work in this course is in four parts—(1) designing of clothes, (2) preparation of these designs for reproduction in magazines, (3) outdoor sketching, (4) drawing from the living model.

*II. Poster Advertising.*—A course in Poster Advertising is open in connection with Costume Design.

*III. Interior Decoration.*—The work in Interior Decoration is de-

signed to meet the needs of those who wish to plan their houses conveniently, decorate them with suitable colors, and select and arrange the furniture artistically and usefully. The principles of mechanical drawing, the theory of color, and periods in furnishing are studied. The pupils work out various problems in the arrangement and decoration of rooms.

*IV. Textile Design.*—A course in Textile Design is offered in connection with Interior Decoration.

### III. MUSIC

The Ward-Belmont School of Music possesses the combined virtues of the Belmont School of Music and the Ward Conservatory, both of which had long been the objects of the high praise and the generous patronage of educated musicians both in and out of Nashville. It is more than a complete modern Conservatory of Music; it offers to music students what all of them need—supplementary work in English, Literature, and the Modern Languages. The “mere musician,” the talented player or singer who lacks general education, will be to-morrow more than ever before at a disadvantage, and will be regarded as just so much less a musician. The best musical educators are agreed that general mental discipline should not precede, but should continuously accompany, musical studies; and schools of music are seeking what we have already at hand—intimate affiliation with literary classroom work. Under our system, musical study and practice are not allowed to suffer or be crowded out, but the student is shown how she may become both a cultured woman and a thorough musician. Our musical faculty is probably the largest and most expensively maintained one in any school for girls in America. No teacher is chosen who has not had the best of advantages, most of them in both this country and Europe, teachers who have supplemented graduation from the leading conservatories with years of special study under the recognized masters of two continents. All of them are tested teachers. Piano, Voice, Violin and certain other stringed instruments, Pipe Organ, Theory, Harmony, Composition, History and Appreciation of Music, Interpretation, Ear Training, Sight Playing and Chorus, Ensemble and Orchestral Work, Répertoire and Memorizing, and Faculty, Student, and Artist Recitals—all, and more, take their appropriate places and contribute to the creation of a wholesome and inspiring

musical atmosphere. Such an atmosphere is possible nowhere except in a large school where musical education is seriously undertaken by a faculty composed of tested professional musical educators. Frequent student recitals are given, as are recitals and lectures by members of the faculty and other eminent musicians. Pupils may attend the best concerts in the city. Operas are frequently given by excellent companies, and the world's greatest artists appear in Nashville from time to time. The immediate and convenient value of these advantages at our own door will be the more apparent when it is known that our students may have throughout the season the great musical entertainments, but a very few of which other Southern schools can enjoy, and these only by means of travel and additional expense from the smaller towns into the city.

Eighty pianos, including ten Steinway Grands and a Steinway Duo-Art Pianola, are available for school use.

Instruction is not offered in Mandolin or Banjo.

Boarding students specializing in Music, Art, Expression, or Home Economics are required to take at least one literary course.

### EAR TRAINING AND SOLFEGGIO

Discriminative hearing is indispensable to a musical education, and must precede or accompany all lines of music study. The aim of this course is to teach the pupil to think in tones and to so train the ear and the musical feeling that one may learn to sing, name, write, and play what is heard, and to recognize and appreciate not only the melodic effects of music, but the harmonic and rhythmic also. No other branch of music study will be found so helpful in the acquiring of proficiency in reading and hearing music as that of ear training. Sight singing accompanies the work throughout the year. Beginning with simple intervals and phrases, the solfeggio work progresses by easy stages until difficult passages can be read with fluency.

*Course A.*—Rudiments; notations; recognition by ear of the diatonic intervals of the Major and Minor scales; solfeggio exercises in simple notation and rhythms; dictation exercises; simple meters and rhythmic units; melodies in Major and Minor chromatic intervals; Major and Minor Triads; simple modulation; exercises and songs in one and two parts.

Two hours a week.

*Course B.*—Review of intervals; recognition by ear of Major and Minor Triads and their inversions; Dominant and Diminished Seventh

Chords; dictation exercises; melodies involving chromatics and modulations; compound meters; complex rhythmic patterns and syncopations; all sevenths and altered chords; sight-singing exercises in two, three, and four parts; songs and vocal selections from the standard choral literature.

Two hours a week.

### HARMONY

*Course A.*—Intervals, triads and their inversions; chords of the Dominant and Diminished Seventh, their inversions and resolutions; cadences, modulations, chord connections in four-part harmony in close and dispersed positions. Stress is placed upon the harmonization of melodies. Figured and unfigured basses are also presented. Secondary and Diminished Seventh chords; chords of the ninth; chromatically altered chords; augmented chords; cadences; extraneous modulation; suspensions; passing and changing notes; organ point; form; analysis. The work consists of written exercises involving the harmonization of melodies, chorals, figured and unfigured basses; the contrapuntal treatment of a given subject; original work and the analysis of material from the great composers.

Open to College students who have completed Theory and are doing their last year's work for certificate in Music. Three hours a week.

*Course B.*—A study of the forms and harmonic material used by the composers of the past and the present. The devices employed, principles governing them, and the general structural forms are carefully considered, enabling the student to explain the construction of musical composition. Strict counterpoint of the different species in two, three, and four parts; free counterpoint, with special emphasis upon florid counterpoint in several parts; double, triple, and quadruple counterpoint, and modern treatment of contrapuntal methods. This is designed to develop a technic in smooth part writing and to prepare more fully for the study of composition.

Prerequisite: Course A. Three hours a week.

### HISTORY OF MUSIC

*Course A.*—This is a general survey of the evolution of music from earliest times to the end of the nineteenth century, with emphasis upon the composers of the classic period, offering invaluable aid to musical understanding and appreciation. The work consists largely of lectures, supplemented by material from text, collateral reading, notebook work. The following subdivisions are considered: Pre-Christian Music; the Christian Era to the Contrapuntal Schools; from Lasso and Palestrina to Handel and Bach; the Contrapuntal, Classical, Romantic Schools of Composition. Numerous illustrations are given in the classroom by means of sound-reproducing mechanisms. Lectures upon the following subjects are also included: "How to Listen to Music," "The Sonata Form," "The Symphony Orchestra," "The String Quartet."

Two hours a week.

*Course B.*—This is a continuation of the first-year course. During the first half of the year a more extended and critical survey of the music by the great masters of the nineteenth century is made, and the tendencies of present-day musical art are considered at length. During the second half of the year special emphasis is placed upon a more elaborate study of the opera and the modern schools of composition. In addition to a critical and biographical study, the works of the composers are considered, as regards their methods of construction. Programs of visiting artists are studied, and the subject of musical æsthetics is considered. Illustrations are afforded by means of the Victrola and the Duo-Art Pianola.

Open to students who have completed Course A. Two hours a week.

*Course C.*—This is a course in Musical Appreciation, dealing with the music of the great masters from the time of Bach to the present, based upon a study of form and content. It is designed to enable the general student to understand and enjoy the highest types of musical literature through a knowledge of the æsthetic and psychologic principles involved in their development. Especial emphasis is placed upon the composers and periods that affect present-day musical life. The work is given by means of lectures, material from text, collateral reading, reports and digests of assigned topics. The programs of visiting artists are studied. Abundant illustrations are given by means of the Steinway Duo-Art Pianola and the Victrola.

Open to College students. No music prerequisites. Three hours a week.

## V. PHYSICAL EDUCATION

The value of Physical Education, both morally and ethically, the training of the body for utility and grace, and the intelligent care of it for protection against weakness and disease, make the department of Physical Education one of greatest importance. Every effort has been made to make the equipment and management as complete as possible. Physical training is given free of charge to all students, and is required of them for at least three hours a week in every year. A physical examination is given at the beginning of the session, and a record is kept of the condition of the individual. From this record the student is advised as to the kind and amount of exercise best suited to her needs.

*The Gymnasium.*—The Gymnasium Building, recently constructed, is complete in every detail. On the main floor are two gymnasium rooms—one, 90x50 feet, for general activity; the other, 50x28 feet, equipped for special exercise. On this floor also are the executive offices and an examining room. A balcony surrounding the main gymnasium fur-

nishes ample space for spectators. On the balcony floor are recitation rooms, a dancing studio, and a trophy room. On the lower floor are the lockers, dressing rooms, shower baths, and hair dryers. On this floor also is a shampoo room, four bowling alleys, and an instructor's office.

*The Swimming Pool.*—The swimming pool is in a separate building, adjoining the Gymnasium Building. It is 23x50 feet, and is constructed of white tile. The water is constantly filtered and sterilized, and is kept at the temperature necessary for comfort. The pool room is 66x28 feet, 30 feet in height, surrounded by a spectators' balcony, and supplied with windows on both the pool and balcony floors. A glass roof gives added light.

*The Athletic Field.*—The outdoor equipment consists of two athletic fields (100x50 yards), three basket-ball courts, an archery range, four tennis courts, a nine-hole obstacle golf course, and a riding ring. Adding to the completeness of this equipment is a cement court (179x40 feet), which makes possible the playing of tennis and other games outdoors the entire year.

*The Stable.*—Kentucky and Tennessee are world-famed as the birthplace of the American saddle horse. It seems altogether fitting that a school situated within a few miles of the famous Belle Meade Stock Farm should offer every opportunity to its students to perfect themselves in the one sport for which the South for generations has been preëminent.

The Ward-Belmont stable is owned and maintained by the Athletic Association. It consists of gaited saddle horses carefully selected as types of disposition entirely suitable for school work, and are as safe as is possible for horses to be. Careful instruction is given in the various types of horsemanship, and a groom is in constant attendance, both in the ring and on the road.

As an incentive toward good horsemanship, an Annual Horse Show is given on the school campus by the members of the Riding Club.

*Work of the Department.*—The work of the department includes the various phases of Physical Education. Practical gymnastics, gymnastic games, dancing, swimming, swimming sports, and bowling form the important part of the indoor work. The outdoor work consists of field hockey,

basket ball, baseball, tennis, archery, field and track athletics, hiking, bicycling, and horseback riding. The work of the year is divided into three seasons—fall, winter, and spring. In the spring and fall a student may elect her outdoor sport, but during the winter all are required to take indoor gymnasium work and swimming until they can pass the swimming test.

## PHYSICAL EDUCATION COURSES

This fee will enable the students to hear these entertainments at a rate much lower than if they paid for individual tickets.

Each of the above-named fees for board and tuition includes Physical Training, so necessary to health, use of Library, and the modern languages—French, German, and Spanish—all of which, in practically all schools, are charged for as “extras.” Swimming is also included without extra cost, as are weekly class lessons in Poise and Voice. It is the policy of Ward-Belmont to include in the regular charge abundant provision for health in Physical Culture, every literary requirement for graduation, and the essentials for a broad culture. It is thus evident to one considering these features and the liberal additions made to buildings, equipment, and faculty during the last few years that the charge for boarding students is remarkably reasonable.
